Blue Star Professional Windshield Repair Systems

The Blue Star System... How it Works

No matter what type of stone damage.....
Blue Star windshield repair systems will
produce professional results with ease
and simplicity at an economical cost.

Clean window and place the
Alignment Seal over the
damaged area.

Align Resin Chamber (Pedestal)
directly over the Adhesive Seal.

Dispense UV Resin directly
into Resin Chamber.

Place Flow Regulator on
Resin Chamber.

Using the ClearVac™ system or...

...the MagnaPump™ system

After attaching Hose and Injector Assembly, the system is ready to perform the Vacuum and Pressure cycle to complete the repair.

Remove the system and cure with your option of the battery powered UV lamp, 110 volt UV lamp or just the sun and you're done.

Both the MagnaPump™ and ClearVac™ utilize the same procedure to produce quality repairs

BLUE STAR

ClearVac™ Standard Professional Service System

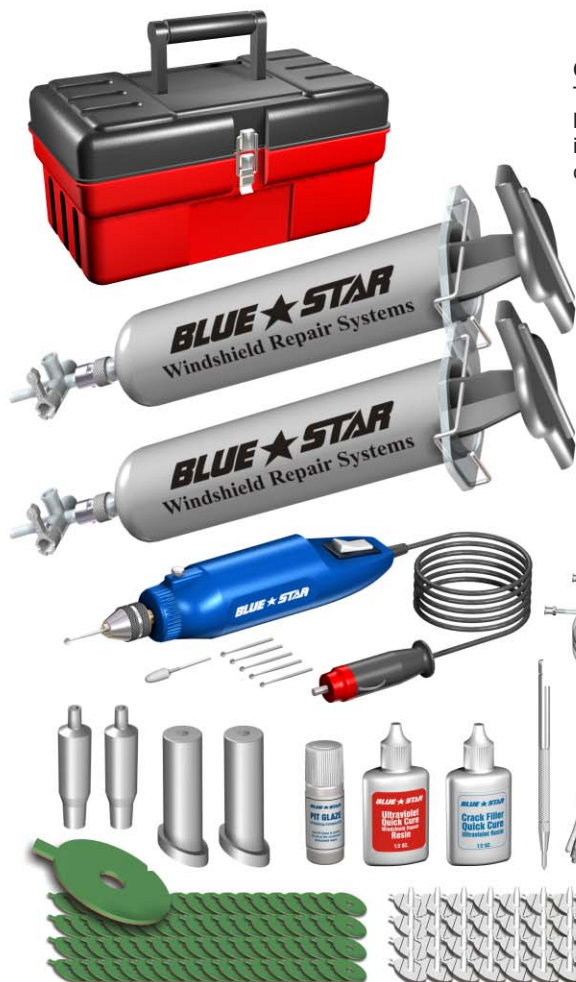

ClearVac™ Standard Professional Windshield Repair System Model #CVS

The Blue Star ClearVac™ Standard System includes all the components necessary to perform 36 high quality professional repairs in a compact, portable case.

- 1 Cure Guard
- 1 Carbide Probe
- 1 UV Curing Lamp (operates with batteries or use with lamp adaptor e/w cigarette lighter connection
- 1 UV Lamp Adaptor (connects to UV Lamp and cigarette lighter)
- 4 Penlight Batteries
- 25 Mylar Squares for pit repairs
- 1 Bottle of Pit Polish
- 10 Razor Blades with Holder
- 1 Instruction Manual / Video
- 1 Tool Box
- 1 Viewing Mirror
- 1 Pen Light Flashlight

A red and black rolling toolbox with a handle and a latch. The toolbox is shown from a three-quarter perspective, highlighting its sturdy construction and mobility.

A collection of Blue Star dental curing tools. The main tool is a large hand-held curing unit with a blue body, red textured handles, and a silver pressure gauge at the top. It has 'BLUE STAR' printed on the blue section. To its right is a smaller hand-held curing unit, also blue and silver, with 'BLUE STAR' and 'Ultraviolet Curing Light' printed on it. Below these are several accessories: a blue curing light with 'BLUE STAR' on it, a black curing pen, several thin metal curing tips, a coiled black cable, and a small bottle of 'Blue Star' curing gel. There are also three small blue and red batteries labeled 'BLUE STAR'.

The Blue Star MagnaPump™ Deluxe system includes all the components to perform 50 repairs. The MagnaPump™ system is equipped with a Vacuum / Pressure gauge for monitoring the repair process. It includes a glass drill, a portable battery operated UV Lamp, a linear crack repair kit as well as a pit polishing kit.

- 1 MagnaPump™
